

# The Economic Impacts of National Security Spending in California

Requested by: The Governor's Office of Planning & Research  
The Governor's Military Council

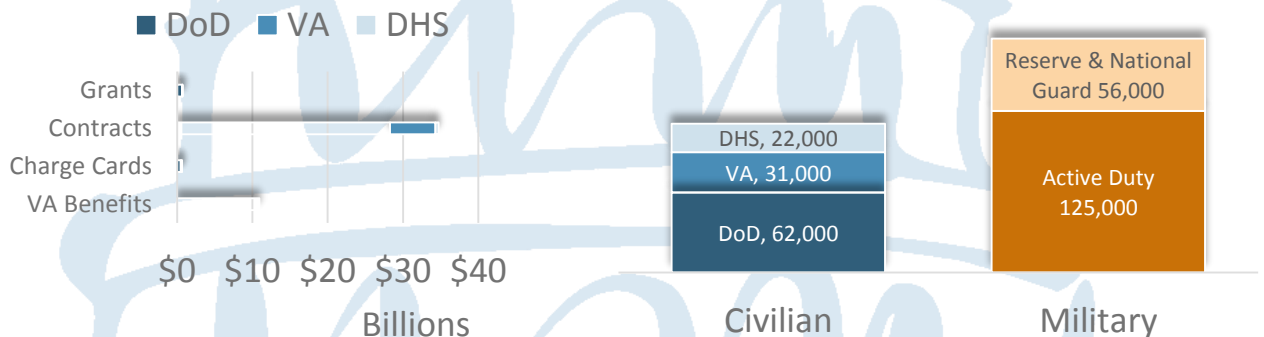

Prepared by Devin Lavelle  
Senior Researcher

\$156.3 billion in economic output and 767,000 in FTE employment created by

\*Direct includes full- and part-time federal employees referenced above as well as the full-time equivalent (FTE) employment of federal contractors and vendors generated by direct government spending referenced above.

\$47.0 billion in direct spending and 295,000 employees in FY2016

Economic Impact is concentrated in SoCal but impacts counties across the state and produces \$17.5 billion in government revenue
